

island

Product Name / Island

Function / Sofa

Description / Island is a collection of sculptural, rounded sofas made of two layered elements - seat pad and backrest, one hovering over the other. An ottoman is also available to compliment the collection. Side tables are available to compliment the chairs. All available in a wide selection of colour laminates

Uses /

Island is perfect for foyers or breakout areas with high traffic. The backrests are big enough to place a laptop on or to use as a perching seat. Great for user interaction or as a high table seat.

Materials /

Each pad can be upholstered in different fabrics or colours and are connected by steel legs either in brushed stainless or powder coated steel finish. Fabrics are Camira Blazer 100% Wool and are rated for use in commercial interiors. We also use Vinyl from the Camira range.

Finishes / Colours /

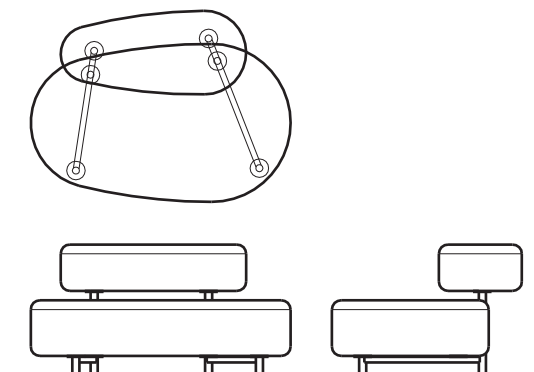

See colour chart on web site for information
