

octago

Product Name / Octago

Function: Octago is designed to be a compact two seater meeting pod with an acoustic panel interior and full customisation options. These birch plywood pods feature a non-slip recycled stockboard floor plinth, large format photo, LED pendant and fast charge usb power module built into the table. The fully upholstered seats and backrests wrap around each user with the pod interior lined with wool covered acoustic panels making a cosy escape from the noise of the open office. Each pod is custom tailored to a clients brand colours and we can print any photo or graphic onto the plywood back panels to add vibrancy and visual depth.

The photos show the pods at a recently completed a project for the Corporate Services Division at Trinity College. We also supplied one of our Dodeca meeting pods. As with all our products Octago is proudly designed and manufactured here in Leitrim but available nationwide. Give us a call or email for further information, pricing or a tech sheet.

Uses: Octago is suitable for almost any area due to it's small footprint however it would obviously work very well in hallways and gaps between other office furniture

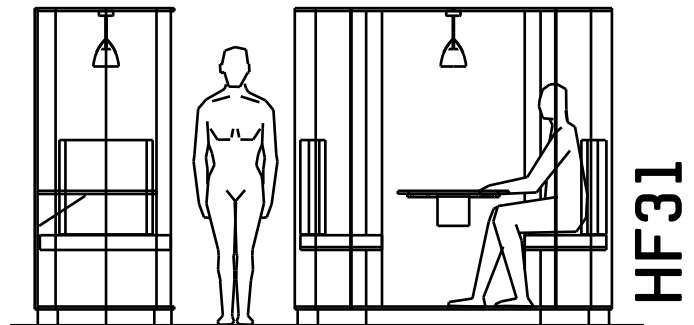

Materials: Birch Plywood construction with matt black powder coated steel and commercial grade fabric upholstery – Camira Blazer 100% wool shown in images.

Finishes: Pods can be customised in several ways to suit any project including colour of pod exterior, interior upholstery, photographic back panel, table top colour etc. Contact us to discuss your requirements.

Dimensions:

HF31 H2000mm W2000mm D880mm

Design: Leo Scarff Copyright 2020

Project: CSD Hub at Trinity College Dublin
